

This newsletter gives an update on the newest products that AluminumJumprings.com has to offer.

News of the Month (10-25-11)

Whether you make jewelry, ornaments or armor, We would love to see pictures of your finished projects. We will be setting up a customer "Brag" page displaying your items. Send us an email with your pictures and a short description and we will make sure they get posted on our site!

Drop us a line to let us know how we're doing and what new rings you would like to see. We don't know what you need unless you ask, so don't be shy, we will do everything we can to get what you need.

We have had such wonderful support from our customers. Hundreds of packages out to happy customers! Without you we wouldn't be around! We are growing, and having those inevitable growing pains. We ask that you bear with us as we try our hardest to keep all of the products you need in stock, while we add the new products you want.

Colored Rubber Rings! Add some S-t-r-e-t-c-h to your designs!

We got our first shipment in and they are going fast, so we just made another order for a bunch more.

No green and yellow available yet, but our supplier says that they will have them in November.

Anodized Aluminum! New color: Green

Add some color to your next project. One size of green is in and another to get here soon. Look for our color selection to keep expanding.

20g and 18g EC Rings

3 new 20g colors!

We keep telling you about them, but they are really here.

Sea foam green, neon pink and parrot green. 20g rings in the new colors have been added. Rings are being made and marked into stock perpetually, so be sure to head on over and get some for your next shiny jewelry project.

New 18g Wire should be here in a week or so, and more rings will be made.

18g and 20g AWG square rings in copper, brass and bronze...

...are being made and marked into stock.

We do custom orders!

Do you need something that you can't find anywhere? Send us [an email](#) and let us know you want it. We will make every effort to meet your needs.

Thank you for your continued commitment to us! It really does mean a lot!

Quick-fact #9

Enameled Copper wire comes in a huge array of colors. There are two types, silvered EC and plain EC. Silvered EC is plated with fine silver before it has the colored enamel applied. Even though it is more expensive, the vibrant color is well worth the cost. Try some out so see its wonderful colors!
